

Issues & Opportunities Engagement Summary (Task 4.1)

Objective

This task is intended to summarize the results from the first phase of the engagement process. Through various engagement events held during 2020 and 2021, the community has identified the issues the city is facing, the values it holds, and the opportunities for positive change. These events have informed work products of the Visioning Phase of the General Plan Update, primarily the Vision & Guiding Principles and the Vision Diagram.

The matrix below includes a brief description of the engagement event, participation data, the community values expressed during the event, the issues & opportunities identified in the event, and the work products informed by this input.

Engagement Events

While the matrix below highlights key findings from engagement events, more in-depth summaries of each event can be found in the relevant report. Below is a list of each event with a link to the corresponding summary report and an overview of the information included.

- **2020 Petaluma General Plan Public Survey - September 29 - November 29, 2020**
 - The summary report includes background information, key takeaways, demographics of respondents, summary data, and hotspot maps answering questions on initial city-wide areas for change.
